

Link2Feed

Link2Feed is a client intake software that safely and confidentially stores information. The program helps to determine program eligibility and provides Food Bank of the Rockies and its partners information about hunger relief efforts in the community.

WHAT WILL I BE ASKED TO SHARE?

Name

Date of Birth

Address

Household Members

All other questions are optional. No services will be denied if you choose not to answer remaining questions.

Who can see my information?

- Only authorized service providers can view information when you check in.
- All reporting is ANONYMOUS.
- Link2Feed has high security standards, similar to those used at your bank.

Our Data Promise

- All information is kept private within Food Bank of the Rockies' network.
- No individual/personal information is shared with the government or any outside parties.
- Recording information on Link2Feed is safer than storing it on paper.

HOW WILL MY INFORMATION HELP?

Increase efficiency

Full intake is only conducted one time. Future check-ins only take seconds.

Help your community

The more information we have, the better services we can recommend to ensure your community has what it needs to thrive.

Advocate

Link2Feed's anonymous reports enable Food Bank of the Rockies to advocate for the needs of our communities. This increases the funding and resources available.

Connect

We believe we are stronger together. Being connected through Link2Feed helps our network share resources, provide better referrals, reduce wasted food, and pass resources on to those who need them most.

We respect your privacy, and it's your choice to provide additional information at intake. For a copy of our Data Promise, please ask any staff or volunteer. This institution is an equal opportunity provider.
